

# Elif Nur Hirli Portfolio

Personal portfolio website built with PHP, MySQL, CSS, and JavaScript.

## Features

- Semantic HTML: header, nav, main, section, footer, form
- Responsive portfolio layout
- Dark and light theme toggle
- Dynamic projects and experience from MySQL
- AJAX contact form
- Admin login with PHP sessions and secure cookies
- Admin dashboard for adding/editing projects
- Admin dashboard for adding/editing experience records
- database.sql included for import

## Setup

1. Copy folder to xampp/htdocs/portfolio
2. Start Apache and MySQL
3. Import database.sql
4. Check config/database.php
5. Open <http://localhost/portfolio>

## Admin

Login page: <http://localhost/portfolio/admin-login.php>

Admin users are stored in admin\_users table. Passwords are hashed.
